

You need to keep and promote your employees. They need more education.

We can help! Introducing . . .

FlexTRACK

YOU NEED:

- Further training for your employees that's flexible
- To prepare your employees and business for growth
- Relevant coursework that applies to your business needs

YOUR SOLUTION:

FlexTRACK

Multiple topics can be adapted for your needs, including:

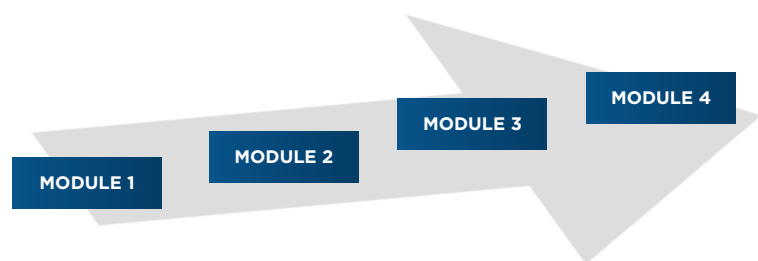

- Leadership
- Communication
- Writing
- Project management
- Administrative skills

How is ***FlexTRACK*** different than “traditional” college courses?

- Fully online: day or night
- Flexible: set your own pace
- Focused: one course at a time
- Real: assignments apply to your career
- Jump start: previous knowledge & experience may equal credits

Mastery-based learning

Each course consists of a different number of modules. Students demonstrate knowledge and skills within each module before progressing to the next.

Credit or non-credit?

- Credit courses add up towards a college certificate, diploma or degree. Many times, a credit-based credential is needed for promotion.
- Non-credit training provides skills training that is normally shorter in duration.

We can help you determine the best choice for you. Contact us today!
